<h3>
</h3>

<h3>
Status for week ending 4/17/2001</h3>

1. There were a couple of problems with the configuration of VL5 on the Shopping List production servers, that resulted in the in-service users not being authenticated. After fixing the configuration, the release 1.1 of Shopping List is working fine with VL5 authentication for both VL5 and web users.

<p>2. The code for Local Stores is ready to be checked in. We are currently debating the the correct location for the checkin; on a branch of the CVS source or on the tip, after backing out the latest changes to database schema. The datamart and cache modules built from the tip of the CVS source require updates to the Datamart and DB schema on the QA and production servers.

<p>Completed printer-friendly version of the MC and LS tables.

<p>The DCI team has not yet implemented the proximity search interface and are also yet to send us the DCI Franchise Ids for the initial list of Local Store merchants.

<h4>

Next Week:</h4>

1. Deliver a release of Search and Datamart modules to QA for testing of Local Stores.

2. Support CTA Banner service and Shopping List.</html>
